

Company

Explorer Context Menu Systems, Inc. was originally founded in 1994 and went a long way from the initial small shop for shell integration software to the leading company in shell menu integration systems area, that it is today. In 1997 we changed our business focus on shell context menu integration systems and introduced to the market:

Explorer Context Menu Platinum

Explorer Context Menu Platinum version 1.0 released in 1997, was the first tool that could add all types of menu items to Windows Explorer context menu, in one easy step. Combined with its straight-forward API interface and ease of use, the product became an immediate success.

Today, Explorer Context Menu Platinum is one of the best selling and most popular explorer context menu integration tools world-wide. The introduction of - .Net based - Explorer Context Menu Platinum continues our mission to provide high quality file processing tools, and expands our presence in the file processing tools market.
